Setting up the Cost Calculator

It is recommended that you set up Scoir's Cost Calculator before doing anything else in Scoir. This will change the prices you see in college profiles so they are more accurate for your family. Income-Based Net Price is the recommended method, which means the net price shown in college profiles will be the average for families who have a similar income. *Note: You can edit your cost calculator at any time on your dashboard.

Navigating a College Profile

From various pages in Scoir, you can view a college's profile. In a college's profile you can...

Take a virtual tour of campus (*most colleges*)

The screenshot shows the Butler University profile page. At the top is a large banner image of a campus scene with a play button icon in the center. Below the banner is the Butler University logo and name. To the left of the logo are two navigation buttons: 'Overview' (with a home icon) and 'Wall' (with a grid icon). To the right of the logo is a 'Suggest' button. Below the logo, the text 'Butler University' and 'Indianapolis, IN' are displayed. Below this is a row of statistics: 'Acceptance Rate: 65%', 'Tuition In-State: \$38,900', 'Tuition Out-of-State: \$38,900', and 'Avg. Net Cost: \$38,051'. Below the statistics is a row of college details: 'Type: Private - Not For-profit', 'College Setting: City', 'Religious Affiliation: Not applicable', 'Honors College: Apply', and 'Residence College: -'.
